

Promotional beach balls made with phthalate-free PVC

Every inflatable unit run through 24-hour leakage testing

Promotional inflatable beach ball

- Sizes available: 12, 14, 16, 18 and 20"
- Made with 0.18mm phthalate-free PVC
- Available with silk-screen-printed logos

Using 19 years of experience manufacturing promotional items, we provide high-quality inflatable beach balls that attract customers' attention during promotional campaigns. These items are made with phthalate-free PVC that meets EU requirements for safety. And to ensure that your logos and graphics stand out, we use high-grade ink and employ silk-screen printing on each ball panel. See this quality for yourself with a free sample.

How do we guarantee that our beach balls won't deflate your promotional events? We inspect and run every unit through a 24- to 48-hour leakage test, a QC step that smaller manufacturers lack the space to perform. For promotional needs, send us your design specifications, illustrations or photos – we'll replicate exactly what you have in mind. Orders for 3,000 units are accepted. For complete pricing details, e-mail us today.
